or overly porous hair lightly misted with Instacure; For best grey coverage, apply to dry hair.

At room temperature. Do not use heat.

Step 1:
Determine the base level & percentage of grey.

Step 2:

Determine the underlying pigment & desired level. Super Sync can provide up to 1 level of lift. Choose a Super Sync shade up to 2 levels lighter than the desired level.

Step 3:

Determine the desired tone & choose a shade that will counteract, balance, or enhance the natural underlying pigment

Step 1:
Grey Coverage/Blending, Virgin,
Retouch & Toner — Apply Super
Sync formula to base area.

Step 2:

Retouch — Following Step 1, process for half the total time, then apply Super Sync formula through mids & ends as needed.

Step 3:

When processing is complete, rinse, lightly cleanse & condition.
